

**WE BROUGHT  
COMPUTER  
TECHNOLOGY  
TOGETHER WITH  
VENDING MACHINES**

## TOUCHSCREEN COMPUTER

18,5 inch touch industrial computer on  
the vending machine body.

## STAFF CARD READER

The vending system works with the personnel cards used in the company.

## INTERNET COMMUNICATION

The vending machine system has the ability to work with Ethernet, Wi-Fi, and 4.5G GSM cards.

## CAPACITY

There are 60 spirals in the vending machine.

Capacity varies depending on product volumes.

## META LOCK LOCKER SYSTEM

You can distribute and collect your valuable equipment or large volumes of PPE equipment distributed to your staff in the company with the Meta Lock System.

## CONVERSION AUTOMAT

We can convert old type work safety machines that you have previously purchased for your company into new technology.

The converted vending machine works by integrating with Meta Ganos work safety software.

All features of the Meta Ganos job security automaton are transferred to the conversion automaton.

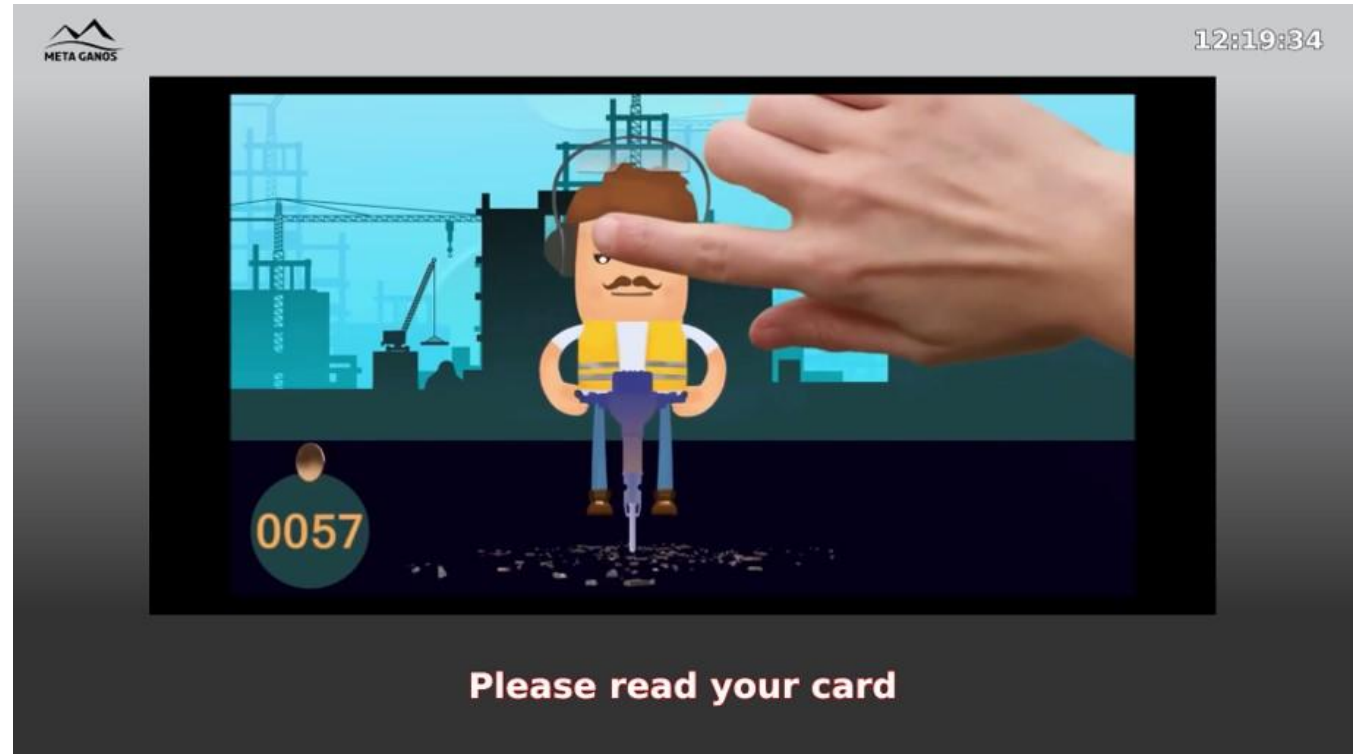

18,5 inch touchscreen computer to be added next to the vending machine, staff can easily retrieve their equipment from the vending machine with full information.

The background features a series of concentric circles, some solid and some dashed, in a light gray color. In the center, there is a gray speech bubble with a pointed bottom. The text is centered within this bubble.

**NEW FEATURES COMING  
TO AUTOMATS WITH META  
GANOS OCCUPATIONAL  
SAFETY SOFTWARE**

## ON THE HOME PAGE VIDEO PLAYBACK

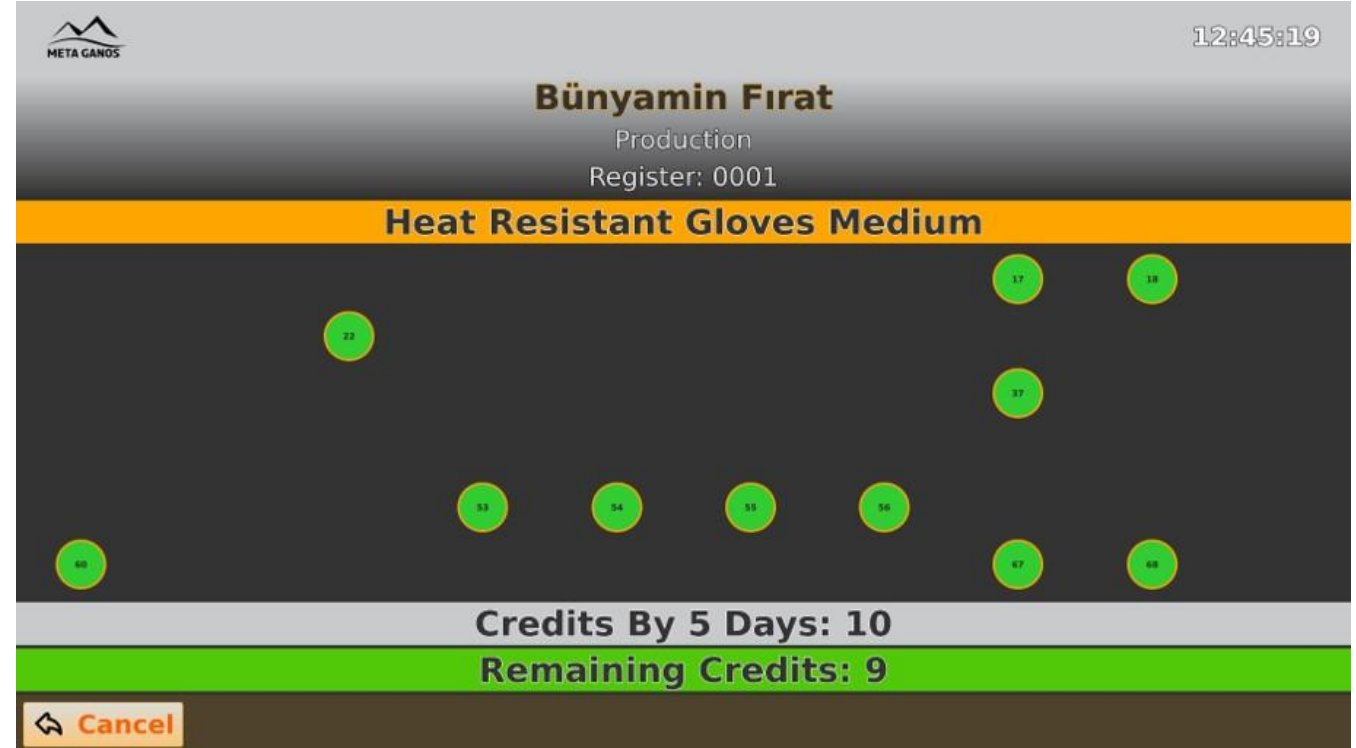

- The desired video is played on the home page and can be easily changed via the software.

## TO THE STAFF DEFINED PRODUCTS

- When the employee scans his/her card, only the products assigned to him/her will appear on the screen.
- The screen contains images and descriptions of the defined PPE products.

## SMART PRODUCT CHOICE

- Personnel can access their periodic allowances and remaining allowances via the screen.
- The equipment is displayed on the screen in whichever spirals it is located and can be easily retrieved by pressing on the screen.

**BUY PRODUCT FAST**

The screenshot shows a user interface for a Meta Ganos device. At the top left is the 'META GANOS' logo. At the top right is the time '13:59:42'. The main header area displays the name 'Bünyamin Fırat', the role 'Production', and the 'Register: 0001'. Below this is a prominent orange bar with the text 'Quick Product Delivery'. Underneath the orange bar, there is a label 'Spiral Number:' followed by a white input field. Below the input field is a numeric keypad with orange buttons for digits 1 through 9, 0, and a backspace key (X). At the bottom of the screen, there is a dark brown bar with a 'Canel' button on the left and an 'OK' button on the right.

- Equipment can be quickly purchased by dialing the relevant spiral number on the quick product purchase tab.

**WARNING**

- If the employee does not have enough credit for the product, a warning is returned saying "You do not have enough credit."

**WEB-BASED TECHNOLOGY**

**THE SOFTWARE IS WEB-BASED.**

Company Logo

Personal Protective Equipment Delivery and Commitment Form

I bought the equipment.

I have received the necessary information and training from my superiors and authorities on how and in what way to use these materials, which were tested for a certain period of time in the work site and were deemed appropriate and selected for use by technical managers, and the risks I would face if I did not use them.

I undertake to use the materials given from the beginning of the work until the end of the work shift, keeping them in the indicated place and applying for replacement when necessary, taking into account the work instructions and the issues in the Labor Law and Occupational Health and Safety regulations.

## NOTIFICATIONS

**NOTIFICATIONS CAN BE SENT  
WHEN VENDING MACHINE  
STOCK REDUCES OR IN CASE OF  
A SENSOR FAILURE IN THE  
VENDING MACHINE.**

# DASHBOARD

YOU CAN FOLLOW THE STATUS OF THE VENDING MACHINES WITH THE DASHBOARD APPLICATION THAT APPEARS ON THE SCREEN WHEN YOU FIRST ENTER THE INTERFACE.

The background features a series of concentric circles in light gray, some solid and some dashed, creating a ripple effect. In the center, there is a large, light gray speech bubble with a pointed tail at the bottom. The word "ADVANTAGES" is written in bold, black, uppercase letters inside the speech bubble.

# **ADVANTAGES**

## Cost Savings and Waste Prevention

- **Prevents unnecessary or excessive use** of work safety equipment .
- **employees are given only the amount of product they are authorized to use .**
- It optimizes material usage **by preventing waste .**
- **It reduces the need for warehouse personnel** and operational costs.
- **It prevents over-ordering and excess stock** through inventory management .

## 24/7 Automatic and Fast Distribution

- **Provides access** to occupational safety equipment at any time of the day .
- **It eliminates waiting times** , employees do not have to wait for the warehouse clerk to get materials.
- **It is an ideal solution for shift workers** (e.g. access is also possible during night shifts).

## User-Based Tracking and Authorization

- It records data such as who bought which product, when, and on an employee basis .
- **The authorization feature** allows certain employees to purchase only certain equipment.
- It increases compliance with occupational safety rules and prevents work accidents, for example **by preventing the use of incorrect PPE** .

## **Simplifying Stock Management and Automatic Tracking**

- **It tracks which products are consumed and how much of them are consumed** , preventing unnecessary orders.
- **It displays current stock levels** and makes it easy to order missing products.

## Occupational Safety and Compliance

- **It requires** employees to use necessary personal protective equipment .
- **Provides data for audits** and facilitates compliance with occupational safety policies.
- **By tightening security controls,** it prevents employees from using missing or incorrect materials.

## Increased Productivity Within the Business

- **It reduces the need for warehouse or storehouse staff** and enables more efficient use of the workforce.
- **It eliminates manual tracking processes and** allows the workforce to be directed to more strategic areas.

## WORKING MODELS

- The system requirements of the machine are up to our customer.
- You can draw an Ethernet line, use it with Wi-Fi or
- You can use any operator line.
- The cost of vending machine transportation, assembly and installation belongs to the customer.
- Our customer is responsible for the vending machine product filling process.

## SALES

- It is the model in which software and hardware are purchased.
- The software runs on your company's servers.

### Warranty Period

- All parts are under warranty for 1 year, excluding user-induced malfunctions and damages (vandalism), starting from the day the machine is installed and assembled.
- Our technical service is under warranty for 1 year.

## HIRE

- It is the model where software and hardware are rented.
- The software runs on Meta Ganos servers.
- A confidentiality agreement is signed

### Warranty Period

- As of the day the machine is installed and assembled, all parts and technical service are under warranty throughout the rental period, excluding user-caused malfunctions and damages (vandalism).

## **WARRANTY PERIOD**

**ALL PARTS ARE UNDER WARRANTY FOR 1 YEAR, EXCEPT FOR USER-CAUSED FAULTS AND DAMAGES (VANDALISM), FROM THE DAY THE MACHINE IS INSTALLED AND MOUNTED.**

**OUR TECHNICAL SERVICE IS UNDER WARRANTY FOR 1 YEAR.**
